#### THE COLONIAL SECRETARY'S STATEMENT.

We are not especially enamored of hack-neyed quotations, but if ever the jaded application of parturiunt montes was excusable, it is in reference to the Colonial Secretary's statement published in another column of this morning's Colonist. The official mountain has indeed labored, and the ridiculous mouse has made its appearance. From the oracular atterances of Mr. W. A. G. Young at the recent agricultural dinner, some innocent people were led into the belief that the Colonial Secretary must be right. Arrogance and assumption are telling qualities always with weak minds ; but when these qualities are supplemented by official position they become absolutely overwholming. If Mr. Young had stated that the total taxation of the Island was exactly £19 19s. 1134d., the individuals who applauded his arithmetical calculations in reference to \$15 a head would have been equally well satisfied with his correctness. In fact, he might have carried his wonderfu powers to that great test of gullibility, and persuaded his enthusiastic lackeys that the moon was really made of green cheese. For tunately Mr. Young is now, through the press, speaking to the people of Vancouver Island, who bear a very different relation to himself and the Government.

The financial statement presented to us b this official, and endorsed by that indisputable authority the auditor, informs the world that the population of Vancouver Island in 1864 was 8 000 and the amount of taxes coutributed by the people \$120,000; giving a sum per head of \$15. We only wonder the Colonial Secretary did not go back to 1859 or 60, when he would have found a much more favorable scale of expenditure, and one that would have saved him the rather undignified procrustean labor of cutting down facts to fit his statement. We shall not, however quarrel with Mr. Young for placing things so conclusively against his own assertions. In our statement of the taxation of Vancouver Island and British Columbia we confined ourselves to the present-not to the past It is the heavy taxation of 1865 of which we with every one else complain, and Mr. Young knows, therefore, as well as any one can tell him that his financial statement is a mere sham. But waiving for the time his shallow artifice we shall proceed to a little analyzation. In 1864 the Colonial Secretary tells us the taxation was \$120,000namely, real estate tax, \$47,469; port and harbor dues, \$16,425; liquor licenses, \$28, 608; trade licenses, \$23,770; Victoria City half per cent. tax, \$4,485; and he also tells us there were \$,000 white persons in the colony. Now let us see what advances we have made in economy since last year. Our population at present numbers, as near as we can estimate it, is 5,000 persons, and they are required to contribute the following taxes:— Real Estate, \$110,000; port and harbo dues, \$17,000; liquor licenses, \$20,800; trading licenses, \$34,000; Victoria City half per cent. tax, salary tax, cattle and vegetabl tax; increased tax on permits and increased tax on trades license, with opium license and additional tax on bankers, &c., amount ing in the aggregate to \$100,000-making in all \$281,860. This, however, is confining taxation to the rather laughable limit which Mr. Young prescribes. Our Colonial Secretary evidently fancies that so soon as taxa tion becomes indirect it ceases to be called taxation, and the money, like the manna the Wilderness, falls from Heaven. Whe we add to the sum already mentioned, fine forfeitures, and fees of Court, \$9,000; fees office, \$4,000; postage, \$6,700; miscellaneous receipts, \$1,000; we find that the total amount reaches within \$7,500 of the \$310,000 voted; or, in other words, withou going into any of the contingent expens which are bound to increase the figure by several thousand more dollars, we have a rat

per head exceeding \$60.

Now let us return to the oracular arithme tician of the Colonial Office, and the much abused Executive. Mr. Young informs us that in 1864 the sum of \$120,000 was all the money that was required to be contributed by 8,000 persons, but we shall give him as set-off to fines, fees, &c.. which we recko in 1865, the amounts put opposite these items in his own statement, raising his \$120,-000 to \$137,000. In 1865 we are informed tha with a population of 5.000 we are to contri bute \$390,000, less \$30,000 for land sales rents, reinbursements, &c.-or in other words, while our population has diminished three eights, we are asked to burden ourselves with an increased expenditure of almos three hundred per cent. The kind propos tion of the Executive was not accepted; but we are still bound to contribute nearly two hundred and fifty per cent. more than 1864 if we accept Mr. Young's statement in re ference to that period. Such is the rather awkward dilemma in which the Colonial Sectary has placed himself; like many other dilemmas, it is simply a pit of the gentle-man's own digging. Had he not been led away in his endeavors to get a cheap year to give substance to his rash assertions at the dinner, he would not have given those who complain of the onerous character of this year's taxation, so unimpeachable a ground of dissatisfaction. But, like the unskilful mariner, in trying to avoid Soylla he has been swallowed up by Charybdis.

There are many other fallacies as well as absurdities in the document of the Colonial Secretary, but we think it is scarcely necessary to take up further time in exposing them It may however be as well to state one o two points in our own case. In giving the

THE BRITISH COLONIST rates of taxation in the various countries we took, for the sake of convenience, the reve nue in globe from all sources. If we had deducted such items as Mr. Young attempts in his statement to deduct from the taxution of Vancouver Island, such as postage, fees of Court, and fines and forfeitures, we should have reduced the rate of taxation per head very considerably and made the relative Mr. Young may object to our taking last

contrasting them with this year's expenses of Vancouver Island; but the simple fact that in almost every other colony the same ratio is pretty closely kept up between the population and expenditure year after year is a suf-ficient justification for our course. Other colonies do not like, ours, jump from one to two hundred per cent. every year in their out-lay. In conclusion, we will not call the Ceonial Secretary an " ass," nor will we say his statement is " mendacious ;" but if any edi-BIRTHS, DEATHS, AND MARRIAGES. tor of a newspaper were guilty of the same attempt to mislead the public and exhibited the same shallowness in the attempt, he would merit the one appellation equally with

Bad Legs, Bad Breasts .- 9ld Wounds, Sore It is surprising how quickly a sore, ulcer, or wound, deprives the body of strength, and un... it for the duties of life; but it is no less wonderful to watch the effect of Holloway's Healing Ointment, when it is used according to the printed directions, and assisted by appropriate doses of the Pills. The pain, indammation, and other morbid manifestations, soon disappear from the affected part and health and strength return.—
This treatment creates sound flesh, and therefore makes its curse compiles.

makes its cures complete.

Gout and Rheumatism.

Will be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts. This treatment must be perseveringly followed for some time and duly assisted by powerful doses of Holloway's Pills. The essence of these diseases lies in the blood, which has floating through each vessel the pain giving poison which vitiates and inflames every tissue t comes in contact with, and produces the hol, swollen, elvatic enlargement about the joints so characteristic of gouty and rheumatic maladies. Both the Ointment and Pills should be used in the following cases:

VICTORIA THEATRE-Mr. Ward's complimentary benefit performance last evening, was honored with one of the largest and mentary benefit performance last evening, yesterday made a descent on the Indon was honored with one of the largest and most brilliant audiences that have yet graced the walls of our theatre. Not only was core year eagerly sought for, but numbers were content to obtain standing room where were content to obtain standing room wherever it could be found. The Firemen in their bright scarlet uniform were present and lent a gay appearance to the scene. The performances though not of the most varied and attractive kind, were the best that could be procured under the circumstances, and included the best thespian and vocal talent that we can at present boast of. The curtain rose with "A Caudle Lecture" by the clever young performers Geo. W. Marsh and Jenny Arnot, who as Mr. and Mrs. Simon Lullaby, afforded much entertainment. The sprightly 'Little Neil,' from Maguire's Opera House "Little Nell," from Maguire's Opera House at San Francisco, then sang the comic song of "Putting on Airs" in a manner which drew down the house and clicited a rapturous encore. This little girl gives promise of achieving much hereafter, but we would recommend those who have charge of her not to allow the child to strain her infantile voice by attempting sentimental songs beyond her legitimate compass. Mr. A. C. Alport next sang "Over the stile, Mary," with his accustomed sweetness and good taste, and was loudly encored. After George March had given, in character, Sam Cowell's celebrated comic medley of "Alonzo the brave and the fair Imogene," Little Nell

Holloway's Ointment and Pills—Acute Rhoumatism. In all severe pains in the joints and miscles, after due fomentation with hot water, the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, case pain, reduce the swelling, restore the free circulation, and expel the disease. In these complaints, indeed, Holloway's Ointment and Pills are an infallible specific. The Ointment should be rubbed as near the part in pain as the patient can bear; it is absorbed and directly conveyed to the diseased textures, when, acting oin nervex, vessels, and guiders, it will arrest disease and again establish healthy action. The aperient and purifying qualities of the Pills have the happest effect in assisting the Ointment. Creighton George Culverwell William

effect in assisting the Ontment.

Holloway's Ontment and Pills—Palpitation, shortness of Breath, Dropsy.—This last named disease is often preceded by irregular action of the heart, and difficult respiration which symptoms are always severe, and over go from bad to worse, unless proper means of cure be resorted to. In Holloway's unrivalled Ointment and Pills' the dropsical patient vill ever find succour; the present relief derived from the use of these remedies is marvedlously quicks and perseverance in the steady application of this noble Ointment invariably results in a lasting and satisfactory cure. The two medicines act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the suffering finds all the oppressive symptoms daily decline, till natural health returns.

virtus of these incomparable Pills are fully appreciated in every part of the civilized world. As they act on the general system through the circulation, there are few diseases which they cannot cure; but they are especially efficacious in all the disorders of the liver. For those they are an indubitable specific. They possess unrivalled potency for good, while they cannot do harm. A child might physic itself with these Pills, and without the slightest danger, except from such excess as would make the most whole-some aitment in the world an evil.
